

Thinking while Moving - English

Hop to it

Activity set-up

View the short video on the next slide for [Hop to it](#)

Draw six, 3x3 grids on the ground using chalk.

Write the letters in the grid that can be seen in the activity set-up diagram.

How to play

The **aim** of hop to it is to find, hop to spell and record as many words as you can in 5 minutes.

What do you need to do?

- identify words that can be made using the letters in the grid
- hop on the letters to spell the word
- say the letters out loud as you hop and say the word you have spelt
- record the word spelt on a piece of paper.

Challenge yourself to find, spell and record as many words as possible.

Can you find and spell the 9-letter word hidden in the grid?

Repeat the above steps to complete each of the grids in the activity set up diagram.

Variations to challenge

You can 'buy' a letter by completing a physical activity challenge.

You can jump instead of hop to spell words in the grid.

Can you write your own 9-letter word in a grid for a family member to solve?

What do you need?

Chalk

pencil and paper
